

Shilshole 99 Viaduct or Downtown

To Reach Shilshole Marina from US 99 North on the Alaska Way Viaduct or Downtown Seattle.

Take the Western Ave. Exit from the Viaduct. This is on the right side of the road and is the last exit before the tunnel.

If you are downtown travel north and west until you are on Western or Elliot Ave and use the following instructions. Westbound Denny Way will flow into Western Ave. Westbound Mercer will flow into Elliot Ave.

Follow Western Ave. North West along the waterfront. Western will flow into Elliot Ave just past Denny Way.

Elliot Ave will turn north as you pass the Grain Elevators to your left and pass under Garfield Street or the Magnolia Bridge. You will now be on 15th Ave.

Follow 15th Ave north and across the Ballard Bridge. The street will now be 15th Ave NW.

Turn left (west) on Market St. at the first light north of the Ballard Bridge. There is a large Safeway Store on the right side of 15th NW at Market St.

Follow Market St through scenic downtown Ballard.

About 2 ½ blocks past 24th Ave NW follow the main road as it curves to the left past Stone Gardens toward the Ballard Locks. The street is now NW 54th and will curve past the Ballard Locks and under a Railway Bridge.

Stay on the main roadway as it turns into Seaview Ave NW. There will be water on your left side. Continue on past Ray's Restaurant, Anthony's Restaurant and West Marine all on the left (west) side of the road.

Continuing north Shilshole Marina starts at the north side of Seaview the Boat Yard.

Parking: I am at Shilshole Marina, Slip Q-66. There is plenty of parking. Park in the main parking lot or along the street. Do not park in a spot that says "Parking Permits Required" – you will be towed. The Dock is toward the north end of the marina - there is a large "Q" above the gate. I will keep an eye out for you on the gate (under the "Q"). I will have my cell phone with me on the boat if you want to call when you arrive at the gate. My boat can also be seen from the sidewalk along the water just north of Q Dock.
